Long way down goo goo dolls twister

Oh here you are, there's nothing left to say. You're not supposed to be that way Did they push you out, did they throw you away? Touch me now and I don't care. When you take me I'm not there alone. Long way down, I don't think I'll make it on my own. I never put you down, I never put you down, I never put you down, I don't think I'll make it on my own. Long way down, I don't want to live in here alone. Long way down, I don't think I'll make it on my own. I never put you down, I don't think I'll make it on my own. "Long Way Down" Goo Goo Dolls song - news · newspapers · books · scholar · ISTOR (August 2015) (Learn how and when to remove this template message) 1996 single by Goo Goo Dolls Hong Way Down Single by Goo Goo Dolls Single schronology "Naked" (1996) "Long Way Down" (1996) "Lazy Eye" (1997) "Long Way Down" is the fifth single by the Goo Goo Dolls from their 1995 breakthrough album, A Boy Named Goo. The song is often overshadowed by the low-key ballad "Name", which launched the band to household names. Although it wasn't as successful as the chart-topping success of "Name" on the rock and pop charts, "Long Way Down" reached No. 7 on the Billboard Mainstream Rock Tracks chart, and No. 25 on the Modern Rock Tracks chart, although it did reach a peak of #49 on the Radio & Records pop chart for one week on July 26, 1996 before falling off the following week.[2] "Long Way Down" appeared on the soundtrack for the 1996 film Twister, which contributed to the song's success. The band performed the song on the May 22, 1996, episode of Beverly Hills, 90210. That's the type of song playing in that type of van driving across that type of land in that type of movie. Average. Perfect. You probably remember the film TWISTER from 1996: the cow that twice flies across the screen, Helen Hunt's glorious hair, the drive-in movie complex playing THE SHINING before it gets ripped apart by a tornado. You might remember it as a half-decent flick you saw once and don't need to see again. Why would you? It was fine, average. There's a scene where Bill Paxton, his ex-wife in the film Hunt, and his new fiancee Jami Gertz get tossed around by a pair of twisters while driving down a road in the film's setting of Oklahoma. Middle America; average. When they escape unharmed, Paxton and Hunt celebrate while Gertz emerges from the back seat visibly distressed. A few seconds later, their cadre of storm chasers catches up with them, a car radio blaring The Goo Goo Dolls' "Long Way Down". The moment is brief, just long enough for the viewer to hear the chorus through once. But it's also an illustration of how TWISTER and "Long Way Down" are the perfect pair in average entertainment. Average is necessary. You don't always have the stomach to sit through a Stanley Kubrick film or a Radiohead epic. Average is Sunday afternoon when you stumble upon TWISTER and "Long Way Down" are perfectly average. The film is a reminder that the 1990s did absurd adventure excellently. The 90s had money to afford a deep cast of stars and character actors, making each scene worthwhile. Bored at the idea of a love story shoe-horned in to a disaster movie? Watch Paxton and Hunt develop great chemistry. Find quirky supporting cast members predictable and exhausting? Deal with Philip Seymour Hoffman explaining "the Suck Zone" in pot-infused detail or Alan Ruck delivering lines like "Honey, your car's in a tree around the corner." It's Hoffman's van that approaches the three twister escapees with Goo Goo Dolls on the radio. A whatever band from a bloated era of whatever bands who, if they simply shouted out three chords, they'd be a sure-fire hit for at least a few years back then. And of course Goo Goo Dolls would be playing on the radio in Oklahoma. Easy rock pervades this film: Van Halen, crap-era Chili Peppers"), Shania Twain, Soul Asylum. The Dolls aren't just making a buck off some exposure, they're part of the movie's landscape. The movie and the song are extra fat that could be scraped off the decade what it was. You had your choice of disaster movies and alternative-lite bands and while more isn't always better, the fact that there were so many attempts at this kind of entertainment means that there are dozens of these forgotten gems still rattling around the attic. TWISTER is miscast an average can be done perfectly, enjoyably, and without irony. Because sometimes a simple shot to the gut can make your brain hum along in unison. by
